## STATE AID FOR SCHOOLS IS LARGE

Each Resident of School Age To Draw \$2.85 From The Fund

Every child of school age will bring to its district \$2.85 in state aid, according to the state apportionment of the seven-tenth and common school taxes announced by State Supt. C. P. Cary.

There are 783,703 children of school age in the state compared with 781,526 children last year, an increase of 17,000. In Milwaukee alone the increase in children of school age was 6,000.

The total amount received from the common school fund for apportionment is \$221,983 and the total amount received from the seven-tenths mill tax is \$2,109,812. To this must be added \$200,000 in corporation fees, making a total to be distributed, \$2,531,795.

Before this amount can be distributed the law requires that certain deductions shall be made. The sum of \$18,500 is set aside to give state aid to school districts putting in ventilating systems, etc.; \$10,000 is set aside for the transportation of school children; \$81,000 to pay the salaries of supervising teachers; \$60,121 to pay the bonuses to teachers in increased salaries, where the teacher has remained more than one year in the same school; \$3,730 is withheld from districts that have not complied with the laws to keeping their school open a certain number of days each year and repairing the school houses, and \$66,751 is turned over to the teachers' retirement fund as the 10-cent per capita tax, outside of Milwaukee, on each child of school age for the support of the teacher's retirement fund.

This leaves a net total to be distributed of \$2,356,173. Inasmuch as the 10-cent rate per capita for the support of the retirement fund does not apply to Milwaukee, the rate for the state is \$2.85 per child and for Milwaukee the rate per capita is \$2.95.

There were twenty-five school districts in the state, out of a total of about 6,600, who were deprived of the right to share in the aid, because they did not keep school open 160 days each year. Six other districts lost their aid because they did not pay their teachers a salary of \$40 a month as required by law, and in 3 districts the teachers were not qualified. Eight additional districts were deprived of aid, because their school buildings were condemned and the directors and electors of the district have failed to authorize the erection of new buildings.

## WILL PAY MEN WHILE AT CAMP

Following the order from the adjutant general increasing the maximum enlisted strength of national guard companies of the state from sixty-five to eighty-one, Col. A. J. McCay, manager of the Combined Locks Paper Co., at Appleton, announces that the regular pay of any employee of that company would continue while he was attending state camp provided he would enlist in the guard. Col. McCay has recently been retired from the Illinois guard. He believes that the proposed continental army plan is an impossibility. "What employer is going to let his men off for two months every summer to attend the encampment of that army?" he said in speaking of the plan. "But I'll tell you what we will do, we will let the pay of any employee continue while he is in camp with the state guard."

Campbell Gray, Vicar.

## PRIZE POTATOES REACH PRESIDENT

Letter Received by Shipper at Marinette From President's Secretary

At the time of the state potato show at Marinette, Postmaster L. J. Evans of that city secured a nice assortment of the prize tubers from three of the lots exhibited and made a parcel post shipment of the same to the White House at Washington. The lot consisted of those grown by E. S. Shepard of this city; E. L. Hazelburg of Barron, and G. T. Wychoff of Crivitz. The letter which Mr. Evans received acknowledging receipt of same by the president was published in the Marinette Eagle-Star and appears below:

The White House  
Washington, Nov. 26, 1915.

Personal.  
My Dear Sir:—  
The President asks me to acknowledge the receipt of your letter of November 20th, and to convey to you and to everyone concerned an expression of his warm thanks for the good will which prompted the sending of the prize potatoes. He deeply appreciates the kind thought of him which this courtesy evidences.

Sincerely yours,  
F. W. TUMULTY,  
Sec. of the President.

Mr. L. J. EVANS,  
Marinette, Wis.

## YOUNG COUPLE WED SATURDAY

Saturday evening at seven o'clock, occurred a very pretty wedding, when Miss Helen Forbes and Mr. Joseph Franklin Schooley Jr., were united in marriage at the home of the bride's parents, Mr. and Mrs. Edward Forbes. The bride wore a white silk gown and veil and carried white roses and lilies of the valley. She looked very sweet and pretty against a background of green boughs and pink carnations, which formed the decoration for the home.

Miss Katherine Clayton, a niece of the groom acted as flower girl and Miss Verna Squier played the wedding march.

The ceremony was performed by the Reverend Heyl of the Congregational church, of which the bride is a member. A three course dinner was served to the guests, who included twelve from this city and five from out of town.

Those from away were Mr. and Mrs. Joseph Schooley, parents of the groom; Mrs. Clayton and daughter, his sister and his niece; Mrs. Cole of Wakefield, Mich. The city guests consisted of close friends only.

Mr. and Mrs. Schooley left on the eleven o'clock train for the south, presumably Chicago. They did not announce their destination. They will spend New Years with Mr. Schooley's relatives in Minneapolis and will be at home to their friends here after Jan. 15th.

Miss Forbes until recently has taught in the public schools and has been one of Rhinelander's most popular and charming young ladies and has a large circle of friends.

Mr. Schooley is well known. Their friends wish them joy.

Not since the parcel post was established has there been such a flood of mail, both outgoing and incoming at the local postoffice as there is during the present holiday season. Postmaster Stapleton has put on additional help and is making an excellent showing in promptly caring for the heavy mail, but patrons should be patient with the mail carriers as their daily loads are heavy and some mail may have to be left over for a day.

Miss Josephine Hinz of Oshkosh is a guest at the Jos. Malz home on Thayer street.

## TO PROVIDE NEW FEDERAL COURT

Bill Now Before Congress At Washington Means Much For City

Representative J. L. Lenroot, of Superior, has introduced in congress a bill to provide for a northern federal court circuit in Wisconsin, to comprise the counties of Ashland, Barron, Bayfield, Burnett, Clark, Chippewa, Douglas, Dunn, Eau Claire, Iron, Oneida, Pepin, Pierce, Polk, Price, Rusk, Sawyer, St. Croix, Taylor, Vilas and Washburn.

Court is to be held at Superior, Eau Claire, Ashland and some other places in Vilas and Oneida county. Superior is to be the center of this district. The judge is to be the judge of the western district of Wisconsin, now Judge A. H. Sanborn.

If this bill is passed, and there seems to be no doubt but that it will be, it will mean considerable for Rhinelander as this city would be selected as the place of holding court, and quarters provided for this purpose in the new federal building soon to be erected here.

## REMO VISITS HOOSIER STATE

John J. Remo who is doing a great deal of good work in bringing in new settlers to Oneida county, returned Friday from a trip to points in Indiana where he had personal talks with a number of prospective buyers of lands in our county. Mr. Remo states that the recent prize winnings of our potatoes at both the state and national shows has already commenced to bear fruit, and he was thoughtful enough to take along a peck of the prize winning "spuds" just to show the Hoosierites the difference between prize stock and potatoes such as raised in Indiana. While at Indianapolis Mr. Remo met Arthur Rouse, formerly of this city, who conducts a gent's furnishing goods store there. Mr. Remo expects a number of buyers to visit this section in the spring and look over our lands.

## SOO ROAD IN U. S. SUPREME COURT

Case At Washington Being Watched With Interest By Other Lines

The constitutionality of the Wisconsin law (section 1810) requiring railways to fence in their rights-of-way and providing that if they do not they shall be liable for all damage to persons injured upon them, is attacked by the Soo road before the United States supreme court in an action brought by Louise Alexander, as administratrix for her husband, James Alexander.

Mr. Alexander was killed by a train while upon the Soo line's tracks in Marquette county. He drove upon the tracks in the dark, there being no fence to keep him back. The state supreme court sustained an award to his widow of \$5,200, and the company sued out a writ of error in the federal supreme court. The law is attacked as violating the fourteenth amendment of the federal constitution, the interstate commerce and post-office clauses of the constitution, the interstate commerce act, and section 1712 of the Federal postal act. It is also attacked on the ground that it conflicts with section 1811 of the Wisconsin statutes, forbidding persons to go upon railroad rights-of-way.

## "FAT TAKE" FOR ABSTRACT OFFICE

More than 600 abstracts are being made by the Langlade Abstract Co. at Antigo for the transfer of the Paine Lumber Co. lands in Langlade county to the Foster-Latimer company. The abstracts convey 52,000 acres, about one-tenth of the area of the county. The value of the timber on the land is estimated to be in the neighborhood of \$750,000. A considerable portion of the timber lands comprising this transaction are along the line of the new extension of the Wisconsin and Northern railroad from Crandon to Shawano. This tract is said to be one of the finest stands of growing timber left in the state, and the ring of the woodsmen's saw and axe is yet to be heard in it.

## RESEVOIRS ARE NEARLY FILLED

The Wisconsin Valley Improvement company reports the largest amount of water stored in its reservoirs in its history. The total amount of water stored last Sunday was 4,187,000,000 cubic feet, and as the reservoirs were still filling, it is estimated that five billion cubic feet of water is at present stored. Saturday's storage was sixty six per cent of the total storing capacity. It is not anticipated that the amount of storage will exceed eighty percent of the total reservoir capacity. About seven of the big dams are now practically holding back the maximum amount of water for which they were constructed.

**CONGREGATIONAL CHURCH**  
Sunday morning, December 26, the pastor will deliver a Christmas message. Let all the members and friends be present and thus publicly commemorate the birth of our Lord. At the vesper service 4:30 the pastor will discuss the subject, "A Community Centre House". The community is cordially invited to this service.

**JOHN DIETZ'S BROTHER DEAD**  
W. W. Dietz, brother of John Dietz of Cameron dam fame, now serving a sentence in Waupun prison, died at Barron Monday. He was twice elected sheriff of Barron county and was chief of police of Rice Lake for a number of years.

**SHORTEST DAY OF YEAR**  
Yesterday was the shortest day of the year. It was also the first day of winter, which began officially at 4:18 in the afternoon. From now on there will be a gradual lengthening of the days until June 22.

## MOTHERS' AID LAW IN DOUBT

Whether counties can be compelled by law to make appropriations under the mothers' pension statute of 1915 is a question submitted to Attorney General Owen by the state board of control.

Three county judges have written the board of control that their county boards made no appropriation, and asked to be advised if they could sign orders for payment of funds due destitute mothers under the law.

The statute is compulsory, but of the forty-one counties from which reports have been received, only twenty-seven had made appropriations. Fourteen have adjourned without making appropriations.

The attorney general has also been asked whether the county supervisors may legally make these appropriations at the January meeting.

## CHRISTMAS IN STATE'S EARLY DAYS

The Christmas festivities of the present day may be more elaborate than those of an earlier period in Wisconsin history, but certainly they do not exceed them in spontaneity and rollicking fun. How the day was spent in the gay old fur-trade post at Green Bay in 1824 is interestingly told in volume seven of the Wisconsin Historical Collections: "A table was spread the length of the room, and plates laid for a hundred guests; the invitations extended to the whole population—French, half breeds and Americans.

The hall was well filled; the variety of costume would have engaged the study of an artist; belles and beaux, men and women, were attired in all the grades of dress, from the highest Parisian gown to the buck-skin coat, pants, petticoat, and moccasins of the aborigines.

"It would be impossible to do justice to the courses of the dinner; suffice to say, that for variety or rarity of dishes, it equaled any of a similar occasion in more civilized times. There was venison, bear meat, and porcupine; a dozen varieties of the feathered tribes from the waters, as geese and ducks; and of fishes, an almost endless list, headed by that king of all the fish tribe, the sturgeon. Nor did the guests fail to bring the best of sauce to the colonel's entertainment—excellent appetites.

This happy company rose from the table at six o'clock, and dancing commenced soon after. The revelry lasted to the 'small hours,' but all returned in good order.

## STATE GUARD ON A "WAR" FOOTING

A move to put the Wisconsin National Guard on a war footing was made Monday when orders were issued by the adjutant-general increasing the maximum enlisted strength of all companies from 65 to 81 men, and stating that additional equipment will be issued as fast as the enlistments are made.

The order also authorizes the organization of a signal corps company, although it does not state where the new company shall be situated. It is to have 75 men, 39 of whom are to be non-commissioned officers.

**USING NEW ICE**  
P. O. Means is now supplying his customers with ice taken directly from his "ice field" on Boom lake, the last year's stock having been exhausted. The new ice now being cut by Mr. Means has attained a thickness of nearly twelve inches. This does not mean this depth of ice prevails at all points, as the clearing of the snow from the area to be used by Mr. Means on Boom lake allows freezing to progress much more rapidly than elsewhere on the lake or river.

Many points along the upper river are as yet considered unsafe for team travel and the usual winter road, via the river route, has not as yet been marked out.

## COUNCIL PROCEEDINGS

**AUDIT & BOND CO. OF AMERICA**  
Corporation, State, County, Municipal Auditors.

St. Louis, U. S. A., November 10th, Nineteen Fifteen.  
To the Honorable Mayor and Common Council of the City of Rhineland, Wisconsin.

Gentlemen:—  
The following report is the result of our examination of the affairs of the various city offices for the period beginning with March 20th, 1894 and ending with October 30th, 1915, as per our contract on file in the City Clerk's office.

Respectfully submitted,  
**AUDIT & BOND CO. OF AMERICA**  
W. Harry Mare, Pres.  
F. J. Laurent, "Pub. Accountant."  
D. Callahan, "Pub. Accountant."

## COMMENTS

We have made an examination of the affairs of your city beginning with March 20th, 1894, the date of the incorporation of the city, and ending with October 31st, 1915, in all of the various city offices such as City Clerk, City Treasurer, Superintendent of Water Works, Chief of Police and City Comptroller, and such offices as affect the affairs of the city, and the results and details are fully set forth in this report in the exhibits and schedules supporting this examination.

A. D. Sutton, City Treasurer's Office.  
We have tabulated the actual cash receipts and the actual cash disbursements in this office from March 20th, 1894, to August 4th, 1915, the date on which Mr. Sutton resigned his office. We find that after charging the treasurer with all authorized receipts and collections, and after crediting him with all authorized disbursements and vouchers, that the actual balance remaining in all funds should be \$8,415.84.

A. D. Sutton, City Treasurer. Errors and Omissions, \$14,008.78.

In place of the balance on hand in all funds August 4th, 1915, being shown on the Treasurer's ledger as \$8,415.84, we find that the books and records of account contain errors and discrepancies to the amount of \$14,008.78, divided as follows: \$12,475.33 consists of actual cash receipts and collections of offices received and chargeable to the City Treasurer; \$1,533.45 consists of 2 percent tax fees, penalties and balance due on saloon licenses which should have been charged and collected by the Treasurer as required by law.

A. D. Sutton, City Treasurer, Cash

## Payments, \$5,500.00

Prior to Mr. Sutton's resignation, and on June 16th, 1915, Mr. Sutton paid over to the City \$1,000.00, and on July 3rd, 1915, \$1,500.00, a total of \$5,500.00 cash payments to be applied on errors and omissions which we had found and he expected us to find in his books and records of accounts.

This money was accepted from Mr. A. D. Sutton to himself as City Treasurer, and placed in the city's bank depositories for the credit of such funds and accounts as the audit might show contained any errors or discrepancies.

Exhibit "B", Folio 11-23 Schedules 1-9. These exhibits and schedules give the classified and detailed totals making up the grand total of \$14,008.78 in errors and discrepancies: Page 12-13 classifies the amounts as follows:

Error in footing the ledger.	\$1,000.00
Errors in duplicating city orders.	37500
Errors in over charging city orders.	3,000.00
Errors in transcribing bal.	3,000.00
Errors in over charging school and other orders.	1,923.60

This classification show a total of \$9,298.60.

Page 14-18 shows a further classification as follows: The Treasurer has been charged by us in this audit with the actual footing of the tax rolls, which he collected in the regular order of business, and the actual footing of the fees and penalties accruing on the tax rolls collected by him in the regular order of business. These amounts show as follows:

City taxes.	\$832.42
Fees and penalties.	915.65
Water taxes.	401.83

We further find that the Treasurer collected as water tax from the Soo railway, net water taxes for \$801.90; from this amount we have deducted the regular rental paid the Holland Trust Company of New York who were entitled to an agreed percentage on all water collections received from the Soo railway.

We further find that the Treasurer has collected miscellaneous cash receipts for various purposes to the amount of \$144.88, all of which makes a sub total classification of errors and omissions stated in this paragraph of \$3,176.73 of actual cash receipts received and collected to be accounted for.

In the matter of the 2 percent additional tax collection fees, the Treasurer failed to charge and col-

lect the additional 2 percent on all taxes received after January 31st.

In the matter of the saloon licenses the Treasurer failed to collect the balance due on licenses issued and delivered, on which partial payments only were made.

We are advised in both of these cases that prevailing customs in office were allowed to regulate matters of this character, and it is possible that the Treasurer did not derive any direct benefit from the results of this loss of money to the city's revenue.

In the matter of the duplication of city orders and the recording of erroneous ledger totals, \$9,298.60, and the failure to charge the ledger accounts with \$3,176.73 actual receipts collected, we note the following: We cannot reconcile the daily or monthly dates on which the actual cash was paid out or withheld from the bank deposits of the city, but we are able to show the tabulated schedule of various dates covering this entire period in which items of checks and currency were paid out by the City Treasurer for personal and other uses which had no relation to the affairs of the city, and which would naturally cause the bank account and the cash on hand to fall below the amounts called for by the fund accounts on the ledger, and which would necessitate an adjustment of the ledger figures to reconcile with the funds in the bank.

This condition is brought about by the system used in the Treasurer's office in the past twenty-one years. Disbursements were made in checks or currency as the occasion presented itself. Cash receipts in the form of checks were deposited in the bank, but currency was placed in the drawer to be used in paying orders and other matters. This practice makes it impossible to reconcile the actual receipts taken in against the actual monies deposited in the bank. It likewise makes it impossible to reconcile the actual disbursements against the checks issued on the bank account.

The proof, however, is conclusive that the Treasurer's office for any one period must be charged with the actual receipts of office and must be credited with the actual authorized disbursements, and that he must account in cash on hand and in the bank for the difference.

In making this examination we have given very careful consideration to this requirement, and have only charged the Treas' office with the actual receipts collected, and we have likewise given him credit for all of the actual city, school and library and other orders paid. But in addition to the credit, we have given him for city, school, library and other orders paid, we have given him credit for all checks and disbursements which he issued or paid out for fixed specific city purposes and for which no order had been issued, although it was incorrect for the Treasurer to pay out any sum whatever without having first secured a regulation order. We have further eliminated from the setup of the receipts, all questionable items, and have confirmed ourselves in this report to an actual statement of facts which can be proven to the satisfaction of all parties concerned, and the net results of the matter show that the Treasurer's office in this report has been charged and required to account to the city for actual cash receipts to be accounted for to the amount of \$12,475.33, and the cash receipts not collected but not accounted for to the amount of \$1,533.45.

## Individual and Corporate Surety Liabilities

On folio 21-25 of this report we have set up the year, month, date and amount of each item comprising the above total discrepancies of \$14,008.78. We have divided this total amount into three classifications, covering the bond periods as follows: From January 1st, 1895 to April 1st, 1899 the discrepancies amount to \$829.30 and are covered by personal surety bond as shown on page 24 of this report. From November 1st, 1899 to April 1st, 1902, the discrepancies amount to \$2,245.40, but are apparently not covered by any bond, as we are unable to find anything on file or of record. From January 1st, 1903 to January 15th, 1915, the discrepancies amount to \$10,934.08 and are covered by corporate surety bonds of the Fidelity & Deposit Company of Maryland as shown on page 25 of this report. The amount of the personal surety liability in each year is \$50,000.00, and the amount of the corporate surety liability in each year is \$25,000.00.

In the matter of the question of interest to be charged against a surety liability in a case of default under surety bond, we would advise that the same be referred to your Council as a question of law.

## Books and System

The general system in the various city offices in the past twenty-one years and the conditions which prevailed in the City Treasurer's office have been instrumental in producing the errors and discrepancies of \$14,008.78. The books in the Treasurer's office were not sufficiently safe-guarded to protect the interests of the city. The Treasurer simply kept the fund book, but did not maintain any regular cash book of receipts and disbursements. There was no record showing the daily reconciliation of the cash with the funds on the ledger. Trial balance of the funds was taken off only once a year instead of being done every thirty days.

The City Clerk and the Comptroller's office were never advised by the City Treasurer of the daily receipts which he took in. The City Treasurer should have issued duplicate and triplicate receipts covering daily transactions which should have been delivered to the City Clerk and Comptroller's office. The City Treasurer should have also advised the City Clerk and Comptroller's office of all disbursements which he made which were not covered by actual orders.

The City Clerk and Comptroller's office should have an exact duplicate of every transaction which goes through the City Treasurer's office. (Continued on page 6)

## THE GOOD JUDGE AND THE PRESIDENT OF THE GRANGE.

GENTLEMEN, HISTORY RECORDS THE NAMES OF SOME MEN WHO DID MUCH FOR THEIR COUNTRY AND WHO ARE REVERENCED IN THE MINDS OF THOSE LIVING TO-DAY. LIKEWISE, HISTORY WILL RECORD THE NAME OF THE GOOD JUDGE, WHO HAS TOLD MEN OF W-B CUT TOBACCO. A SMALL CHEW LASTS LONGER THAN A BIG CHEW OF ORDINARY TOBACCO.

PITMAN COUNTY GRANGE

**NEARLY** all W-B CUT users owe the comfort of W-B Chewing—the Real Tobacco Chew, new cut, long shred—to friends who told them about it. W-B CUT Chewing is rich tobacco—a small chew takes the place of a big wad of ordinary tobacco and it lasts. Get a pouch and give it a quality test.

Notice how the ash brings out the rich tobacco taste.

## What Our Machine-Figured Statements Contain

Depositors of this bank receive neatly-printed, accurate statements of their accounts the first of each month, instead of leaving their pass books to be balanced.

These statements contain the following information:

1. The balance of the account at the first of the month.
2. All deposits made during the month, together with the date.
3. All checks drawn (each check marked with a minus (-) sign to show that it has been subtracted).
4. The new balance in the customer's favor at the last of the month.

The statement system makes it unnecessary for

you to give up your pass book (your only receipt for deposits), eliminates the delay of one or more days while the book is being balanced, and affords a much more accurate way of figuring your account.

Giving better service has always been the aim of this bank, and this Monthly Statement System is one of the improvements in service we have been able to offer to our customers.

We believe that you will agree with us that this plan is a big improvement over the method of calling in and balancing pass books.

## STEVENS MILL NOW RUNNING

The saw mill of the Stevens Lumber Co. commenced cutting lumber this week and will run with two crews throughout the winter. As in former years a "hot pond" will be maintained and logs will be unloaded directly from the cars into the water for sawing. This arrangement takes out the frost from the logs, making them much easier to handle.

### A TWICE-TOLD TALE

One of Interest to Our Readers Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of Rhineland woman is confirmed after six years.

Mrs. A. Gruebel, 828 Arbutus St., St. Rhineland, says: "I always had kidney trouble, in fact, I can't remember when I wasn't doctoring for it. I suffered from a dull, heavy ache in the small of my back and it bothered me mostly at night when I lay down. My back was fearfully lame and my kidneys were weak giving me great annoyance. As soon as I began using Doan's Kidney Pills, I could see a difference and I kept on taking them. Four boxes fixed me up all right and I had no more trouble for a long time. Then from over-work and taking cold, I had an attack of backache, but I again used Doan's Kidney Pills and one box was enough to fix me up all right."

(Statement given May, 1907)  
OVER SIX YEARS LATER Mrs. Gruebel said: "I can say that I value Doan's Kidney Pills as highly as ever." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Gruebel has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

### JACKSON, MISS., MAN

Tells How To Cure Chronic Cough Jackson, Miss.—"I am a carpenter, and the gripe left me with a chronic cough, run-down, worn out and weak. I took all kinds of cough syrups without help. I read about Vinol and decided to try it. Before I had taken a bottle I felt better, and after taking two bottles my cough is entirely cured, and I have gained new vim and energy."—JOHN L. DENNIS.

Vinol is a delicious cod liver and iron tonic, guaranteed for coughs, colds and bronchitis and for all weak, run-down conditions. John J. Heardon, Druggist, Rhineland, Wis.

**NO SHELTER FOR LOCOMOTIVES** Owing to a delay in the arrival of the new turntable to be installed at the Soo yards here the locomotives are obliged to remain outside the round house, making it very inconvenient as well as uncomfortable for the care-takers of the iron horse. Everything is in readiness for placing the turntable when it does arrive, and it will be the matter of but a few days then before the house can be used for the engines.

**TRAPS LARGE WOLF** Andrew Anderson the successful trapper of this county, last week trapped another wolf, the largest of any he has secured this winter. The animal was found in one of his traps near Twin Lakes. It weighed 119 pounds and measured 6 feet from nose tip to tip of the tail. \$20.00 bounty money was collected from the county and state. The hide will also bring several dollars.

### HEAVY SNOW NORTH

Saturday night and Sunday a heavy snow storm raged north of here, reaching south nearly to Woodruff. Monday morning the flanger car and crew were sent out from Ashland, running south as far as Monico. This clearing of the track of snow enabled the morning passenger train from the north to reach here but a few minutes behind time.

### SEASON'S COLDEST SPELL

Monday morning the lowest temperature of the winter was recorded, twelve degrees below zero. At six o'clock zero was registered and at eight o'clock it had dropped to twelve below.

### THE DANGER FREE TREE.

How Electricity Provides the Sparkling Cheer Without Risk of Fire.

Nearly every 20th day of December we read in the morning papers the pathetic stories of Christmas play that ends in tragedy. It is the annual toll of the Christmas tree candle. Every city has dozens of such cases each year. The candle flame sets fire to the tinsel trimming, a curtain blazes up, and the day of festivity ends in sorrow or some member of the family is badly burned. The little electric tree lights are decorative and pleasing to children, and they are safe and convenient. Tiny lamps, fruits, roses, doves, birds, snow men and grotesque little figures are all strung together on one, silk covered wire and may be readily connected to any lamp socket behind the tree. The little lamps sparkle and glow. They are the most effective Christmas tree ornaments ever devised, and there is far more fun for the kiddies, because the lamps can burn as long as they are wanted. They do not have to be watched, and the little lamps can be used year after year. They are suitable for any festivity and add gaiety to every gathering of children.

Keeping Cool. "Jiggs says he can't warm up to his work." "Certainly not; he makes ar tidal ice."—Buffalo Express.

### NOT ENOUGH CHILDREN

ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol. Scott & Bowne, Bloomfield, N. J.

## THE NEW NORTH.

The New North Printing Co.  
DECEMBER 23, 1915

Entered at the Postoffice at Rhinelander, Wis., as Second Class Mail Matter

When you pay your yearly taxes think over what Emmanuel L. Philipp promised and see how his pledge has been carried out.

The most of Lobbyist Philipp's misrepresentations regarding Senator LaFollette's past record disappear when the senator gets on the ground.

Gov. Philipp made many pledges as a candidate but has fulfilled none, not even his economy promise. He has put into office many men who were not with the masses, have not been with the people and never will do anything for them. Even his pledge of economy is a black looking page and the masses are aware of the fact.

It is amusing to hear the Philipp followers curse Senator LaFollette but they do not care to have their old repulsive Emmanuel dare to try titles with LaFollette for United States Senator. The nomination for governor is not settled yet, there is no certainty that Philipp can win that nomination. His record is a bad one so far as the people are concerned.

### WICKLOW

Dan Lee made a business trip to Tomahawk Tuesday.

Dr. Pearson was called Monday to attend Mrs. Sigler who has been ailing for several weeks.

Miss Ella Crain and Mrs. Stensrud spent Saturday and Sunday in Merrill with Miss Crain's family.

Our schools will close this week with the usual Christmas exercises in the church.

The Woodmen dance and oyster supper will be postponed until a later date. Notice will appear in this paper.

The R. N. A. lodge held their meeting at Mrs. Lee's Saturday. The old officers were elected for the coming year.

The Woodmen and Royal Neighbors will have a joint installation on Jan. 15 in the evening at Smith's hall. Oysters will be served.

Mrs. Fred Anna leaves today for Green Bay where she and her husband will spend Christmas.

## "SURE CURE" FOR GRIP IS GIVEN

All the Milwaukee dailies of yesterday published the following, and we pass it on for trial. We will await with interest to hear of its results from some of our readers:

"A cure for the grip was revealed yesterday by Robert Schilling, who said that it was given to him by Prof. Carl Heine, at one time professor of surgery in Heidelberg university in Germany."

This is the remedy:

"Have the patient placed in a bath as hot as he can bear for thirty minutes, adding hot water continuously. Then put him to bed in a warm room, not less than 70 degrees, wrapped in a blanket and heavily covered so as to produce profuse perspiration for another thirty minutes. This will bring out the poison germs that cause the trouble, and these must be sponged off with lukewarm water. Unless they are sponged off the cure will not avail, as they will be again absorbed by the skin. The blanket must be washed before being used again, or the user will get the grip."

## HIGH PRICE FOR POULTRY PREVAILS

Those who contented themselves with less expensive fowls than turkey for their Thanksgiving day feast might take the price of this fowl as a warning.

Christmas are doomed to disappointment as they find that the same price prevails now as did a month ago—twenty-eight cents a pound for choice stock. Cold storage birds can be had for two or three cents a pound less. Chickens, ducks and geese sell for a much cheaper price, the former bringing from sixteen to eighteen cents per pound.

The Misses Grace McBae and Margaret Gary arrived last night from Milwaukee Downer to spend the holidays.

## WOMAN'S CLUB HAS GOOD PROGRAM

The Woman's Club held its regular meeting Tuesday afternoon. The topic was Meyerbeer's Le Prophete and was ably handled by Mrs. S. S. Miller, who gave a brief talk on the history of the times and then told the story of the opera.

Mrs. Richards and Williams sang solos from the opera and several Victor records were played.

Mr. Barstow gave a long talk about Rhinelander's resources and needs. He gave many valuable hints and suggestions along civic lines that might be worked out and some undoubtedly will be, in the course of time.

### HEARING TODAY

Walter Wolf, held on a charge of murder, will have his hearing before Judge Smith today. He has secured an attorney from Shawano to defend him. Wolf is being held for the death of James Singer at Monico.

**SALE OF STATE TIMBER**  
The State Conservation Commission will sell to the highest bidder the timber on the following descriptions:

SE SE Sec. 9-37-11 E.  
NE NE Sec. 22-38-9 E.  
Also the tamarack on the NW NW Sec. 21-37-12 E.

The right is reserved to refuse any or all bids. Timber must be cut and removed by June 1, 1916. Bids will be opened at 10 a. m. Friday, Dec. 31, and should be addressed to the State Conservation Commission, Madison, Wis. D23

The third dancing lesson in the course of six, given by Mr. L. C. Baldorff at Guild hall Saturday evening was more than of usual interest. Mr. Baldorff and Miss Darlingdon gave an exhibition of fancy dancing, which added a pleasing feature to the dance.

Herbert Frogner who attends Stout Institute, came from Menomonie Friday night to spend his vacation at the home of his parents.

**LOCAL VAUDEVILLE TALENT**  
Albert and Adlard Dault, of this city, who frequently have performed in local theaters here, started out Monday to cover a few of the nearby cities during the holiday vacation and put on their "act" wherever they found a "demand". Their first stop was Ashland, and judging from the write-up in the Daily Press of that city Tuesday their program evidently pleased the people, although it was not possible to secure open time at any of the movie or vaudeville houses. From Ashland they struck out for towns along the Omaha line with Minneapolis in view, as their final stopping place before returning home. We expect to hear great things from Albert when he gets back to Rhinelander.

### Assist Your Stomach

To Get Rid of the Poisonous Gases and Fermenting Food.

A good long fast will do this sometimes. A trip to the mountains. Tramping. Boughing it. Yes, very good remedies. But are you going to avail yourself of either one of these remedies? No? Then the next best thing is to try a bottle of Peruna. Take it according to directions. You will have a natural appetite. All gas and fermentation in the stomach will disappear.

Read what Mrs. Emma Bell, Box 204, Fort Pierce, Florida, says: "I was taken suddenly with swelling of the stomach and bowels, and great distress. Very painful. Three doctors gave me no relief. Could not eat anything. Everything soured. I was starving to death. I began taking Peruna and was soon strong enough to do work. After taking five bottles I can truthfully say I am well. I gained twenty pounds."

Bentley of Rhinelander, son of Mr. and Mrs. George Bentley. The wedding took place at the parsonage of the Methodist church. Rev. M. J. Everz performing the ceremony. The attending couple were Miss Cassilda Wendorf, and Ray Whittaker of Rhinelander. The bride wore a suit of dark blue and Miss Wendorf wore a brown suit.

A wedding dinner was served at the home of the bride's parents, covers being laid for ten. Mr. and Mrs. Bentley went to Rhinelander on the 9:30 train and will make their home in that city at 610 Randall street.

The bride graduated from the local high school with the class of 1907, and from the Antigo Business College when that institution was under the direction of Mr. Wilson. Since that time she has been employed as a stenographer, and recently resigned her position in the office of District Attorney C. J. TeSelle. She was an active member of the M. E. church and has a large number of friends whose best wishes go with her to her new home. The groom is foreman of the veneer mill at Rhinelander.—Antigo News Item.

### FORMER RESIDENT DIES IN DULUTH

Dan Moriarity, a well known resident of Rhinelander during the 90's, passed away in a Duluth hospital last week Tuesday from cancer of the stomach. He had been suffering from the ravages of the disease for many months.

Deceased will be remembered by many of our older readers. For many years he carried on logging operations in this vicinity and bought and sold timber lands. He was united in marriage to Miss Mary Morgan in this city, moving shortly afterwards to Ladysmith to live, and later to Duluth. He was about sixty years of

age and is survived by his wife and two daughters. Burial was made at Bear Creek, his old home, on Saturday last.

#### SCHOOLS CLOSE

The city schools closed Friday for the holiday vacation of two weeks. Most of the outside teachers left the same evening for their homes in various parts of the state or to spend the time as guests of friends during the holidays.

#### WOLF BOUNTY

Adam Tomcheski of Three Lakes, brought in the scalp of a wolf and collected the usual bounty fee from the county Saturday. He expects to land a few more before the winter's end as the animals are numerous in the vicinity where he lives.

Dr. and Mrs. I. E. Schick leave Friday night for Milwaukee to spend Christmas day and Sunday with relatives.

### SUNDAY AT THE M. E. CHURCH

At 10 o'clock on next Sunday the primary department will give a program to which all the parents are requested to be present.

The pulpit theme for next Sunday morning will be "January 1916" and its relation to God's Gift to the World.

Harris Lewis will lead the Epworth League at 6:15.

"Immortality of Influence" will be the theme for evening public service commencing at 7:30.

The public will find a cordial welcome at all these services.

Dr. A. D. Daniels who is ill with pneumonia, is very much improved, the crisis having passed Sunday.

The Misses Mae Stapleton and Marie Dresden arrived home last night from Milwaukee where they are attending the Normal.

Clarence Wesley of the Oneida Garage was at Eagle River Tuesday.

## Christmas Turkeys

### Order Them Early!

EVERY YEAR some one comes in at the last moment and wants a turkey for the Christmas dinner, only to find that the last one has been sold and no more are to be had at any price. It is disappointing to the customer and doubly so to us. Why not order your turkey in ADVANCE this Christmas, as many others do? You can place your order with us now, stating the weight you want, and then leave it in our ice box until you are ready to use it. It will be labeled in your name and will not be sold to any other person.

## COUNCIL PROCEEDINGS

(Continued from page 2)

and they should maintain independent books and records which will call for a monthly reconciliation with the Treasurer's office. In the event that the City Treasurer fails to advise the City Clerk or Comptroller of these matters, the whole thing should be brought to the attention of the city council at its monthly meeting and immediate action taken and continued until the matter is fully adjusted.

The responsibility for the lack of these requirements and the responsibility for the poor conditions which have existed in the city offices in the past twenty-one years do not rest entirely with any one person, however, no one official should dictate the policy or regulate the affairs of city government. No one official is competent to assume this responsibility, as this is the business and the purpose for which the city councilmen are elected to office. The Treasurer's office represents the financial department of the city and all of the Treasurer's acts should be subject to the supervision and be directed and ordered by the entire city council, and in the past the Treasurer should have been required and instructed to take his orders from the city council and to harmonize the affairs of his office with all the other city offices.

In the past, the city council should have demanded and had made an annual examination of the city in all its offices, and the work should have been done by outside, disinterested accountants. It is impossible for examining committees or council members to do this work, as they are unable to devote the necessary time which it should take to make a thorough and complete audit.

It matters of this character had been given prompt and careful consideration in the past, we know that the present difficulties which have arisen in the Treasurer's office could have been entirely avoided, and he city saved a great deal of expense and the Treasurer's office would have avoided the present embarrassing situation.

As required by our contract, we have installed a complete system in the various offices to meet all requirements. This system will counteract the fallacies which followed in the wake of the former system and will give a complete check and harmony between all offices if properly maintained. We believe that the city council should make it their business to see that it is maintained, and that all officers are paid just and reasonable salaries sufficient to encourage good work and competent and efficient service.

Under the new system the City Clerk and Comptroller's office in conjunction with the Treasurer's office will be able to furnish the city council at each of their monthly meetings with a complete balance sheet of the affairs of the city showing all revenues and expenditures.

Recommendations  
During the progress of our examination our attention has been forcibly called to certain existing conditions which in our opinion need correction and should be prevented in the future.

Indiscriminate Transfers  
It was the custom in the Treasurer's office to transfer amounts from one fund to another indiscriminately.

## COUGH-MEDICINE FOR CHILDREN

Mrs. Hugh Cook, Scottsville, N. Y., says: "About five years ago when we were living in Garbutt, N. Y., I was doctoring two of my children suffering from colds with Chamberlain's Cough Remedy and found it just as represented in every way. It promptly checked their coughing and cured their colds quicker than anything I ever used." Obtainable everywhere.

## NERVOUS WOMEN

When the nervousness is caused by constipation, as is often the case, you will get quick relief by taking Chamberlain's Tablets. These tablets also improve the digestion. Obtainable everywhere.

**DANGER SIGNAL**  
If the fire bell should ring would you run and stop it or go and help to put out the fire? It is much the same way with a cough. A cough is a danger signal as much as a fire bell. You should no more try to suppress it than to stop a fire bell when it is ringing, but should cure the disease that causes the coughing. This can nearly always be done by taking Chamberlain's Cough Remedy. Many have used it with the most beneficial results. It is especially valuable for the persistent cough that so often follows a bad cold or an attack of the grip. Mrs. Thomas Beeching, Andrews, Ind., writes: "During the winter my husband takes cold easily and coughs and coughs. Chamberlain's Cough Remedy is the best medicine for breaking up these attacks and you cannot get him to take any other." Obtainable everywhere.

### A Christmas Carol

By CHRISTINA G. ROSSETTI

Lo, newborn Jesus,  
Soft and weak and small,  
Wrapped in baby's bands,  
By his mother's hands,  
Lord God of all!

Lord God of Mary,  
Whom his lips caress  
While he rocks to rest  
On her milky breast  
In helplessness.

Lord God of shepherds  
Flocking through the cold  
Flocking through the dark  
To the only ark,  
The only fold.

Lord God of all things,  
Be they near or far,  
Be they high or low,  
Lord of storm and snow,  
Angel and star.

Lord God of all men,  
My Lord and my God,  
Thou who lovest me,  
Keep me close to thee  
By staff and rod.

Lo, newborn Jesus,  
Loving great and small,  
Love's free sacrifice,  
Opening arms and eyes  
To one and all!

### Thoughts for Christmas

This was the chorus of that heavenly  
anthem which fell upon the shepherds'  
ears and which will ring down the cen-  
turies till the end of time: "Glory to  
thee, O God—peace on earth, good will  
toward men."

May Christ's glory illumine every  
home and cradle, every workshop and  
counting house! May a brighter halo  
than the painter's put around his  
head surround every mother and babe  
throughout the land at this Christmas-  
tide!

Pretty Dutch Christmas Customs.  
In Holland a pretty custom exists.  
On the night before Christmas, in com-  
memoration of the star of the east, the  
young men of the town assemble and  
carry through the dark streets a large,  
bright star. All the people go out to  
meet it and give to the bearers of the  
"star of Bethlehem," as it is called  
shms for the poor.

Forget Yourself.

If you wish others to remember you  
with pleasure, forget yourself. —  
Charles Kingsley.

'Twas the night before Christmas, The stockings were hung by the The children were nestled all snug  
when all through the house chimney with care in their beds,  
Not a creature was stirring, not even In the hopes that St. Nicholas soon While visions of sugar plums danced  
a mouse; would be there; through their heads.

### A LITTLE CHAT ABOUT POULTRY

(By G. E. Conkey)

The proprietor of any commercial  
poultry farm is sure to have an ac-  
curate system of keeping accounts,  
for it is as necessary to piloting his  
business to success as it is to the  
successful running of a store or fac-  
tory. This same principle applies  
to the farmer or any person who  
keeps a flock of chickens as a side  
line.

Aside from the fact that the accu-  
rate keeping of an account system will  
often create a liking for and an in-  
terest in poultry raising that might  
not otherwise be awakened and is  
likely to develop in the poultry owner  
a spirit of economy that will help  
him greatly in the management of  
other affairs, it has many practical  
advantages that should make it in-  
valuable.

Its greatest value, of course, lies  
in the fact that it enables a poultry  
owner to determine at any time  
whether his birds are being kept at a  
profit or loss and the extent of the  
profit or loss in any given period.

However, an accurate account sys-  
tem will also enable a poultry owner  
to determine the effectiveness of his  
feeding rations, for it will show  
whether the receipts from the eggs  
laid by his hens give him a reason-  
able profit over the cost of their feed.  
All home-grown grain should be  
charged at market prices and all eggs  
kept for home consumption should  
be credited at the prices that would  
be obtained for them if they were  
sold. Then, if the hens do not pay  
for their board, experiments should  
be made to make the feeding meth-  
ods more effective.

In addition, accurate account rec-  
ords are likely to be valuable for fu-  
ture reference. For instance, a com-  
parison of records extending over  
several years will show whether or  
not an improvement has been made  
in the management of the flock and  
thereby whether or not a change of  
existing methods is advisable.

For starting an account system  
there could be no better time than  
the beginning of the new year. Sim-  
plicity should be the key-note, for  
the system that will be valued most  
will be the one that will require  
only a few minutes  
a day or every couple of days to make  
the necessary entries. A loose-leaf  
binder or blank account book about  
8x10, obtainable at any stationery  
store, will prove excellent for hold-  
ing the records.

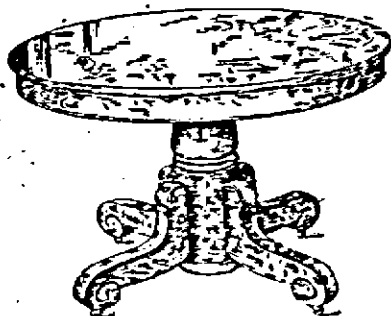

A single entry system that will  
answer the requirements of the av-  
erage poultry owner, yet require very  
little work, can be laid out as fol-  
lows: Mark the word "Debit" at  
the extreme upper edge of the first  
sheet on the left side of your account  
book and the word "Credit" at the  
top of the sheet opposite it on the  
right side. These two sheets will  
be for January records and eleven  
more left-side Debit sheets and eleven  
more right-side Credit sheets can  
be used for the other months of the  
year.

The Debit sheets should be ruled

into six columns, headed: Date, Item,  
Feed, Equipment, Miscellaneous, To-  
tal. On the Debit sheet for January  
should be entered all money spent

during January. For instance, three  
bushels of wheat bought on January  
11 at \$1.2 a bushel should be set  
down as follows: "1-11-16" in the  
date column; "3 bu. wheat @ \$1.20"  
in the item column; since this is to  
be used as feed, the total cost \$3.60,  
should be set down in the feed col-  
umn; and this \$3.60 should also be  
put down in the total column.

The credit sheets should also be  
ruled into six columns, headed: Date,  
Item, Market, Eggs, Market Poultry,  
Miscellaneous, Total. On the credit  
sheet for January should be entered  
all money received during that  
month. Eight dozens of eggs sold on  
January 14, at 44 cents a dozen  
would therefore be set down as fol-  
lows: "1-14-16" in the date column;  
"8 doz. eggs @ 44c" in the item col-  
umn; the total amount received for  
the eggs, \$3.52, in the market eggs  
column; and this \$3.52 also in the  
total column.

Probably the only entry whose  
handling is likely to cause the poultry  
owner any study is when eggs are  
kept for hatching. They, like  
eggs kept for home consumption,  
should be credited at the prevailing  
selling price, but, as they must be  
classed with feed and equipment as  
an investment to produce more profit,  
they should also be charged in the  
miscellaneous column of the current  
debit sheet. The transaction  
simply represents a sale by the poultry  
owner to himself and therefore  
requires two entries.

At the end of each month the total  
column of each sheet for that month  
should be added up and the differ-  
ence between the two columns will  
show the profit or loss of the birds  
for that month. If this process is  
repeated each month, it will soon en-  
able the poultry owner to accurately  
determine whether his flock is a  
paying or losing investment.

With practically no additional  
work, this system can be ex-  
panded to show whether the birds are  
paying back the principal of the in-  
vestment which they represent. To  
do this the poultry owner should put  
down on his first debit sheet a fair  
valuation of his flock, poultry  
buildings and equipment and at the  
end of each month carry the profit  
or loss balance over to start with  
on the correct sheet for the follow-  
ing month. At first the balance will  
be overwhelmingly on the debit side,  
but, if the birds are given good care  
and management, it will probably  
decrease gradually until eventually  
the balance is on the right side.

Guess-work is unprofitable and of-  
ten costly in any business and, for  
this reason, every poultry owner  
should keep some sort of accurate  
records. When once tried, he will  
find them worth many times the lit-  
tle bit of pleasant clerical work in-  
volved.

Oriental Idea.

An English traveler in the Orient,  
who was picking up material for a  
book, asked a pasha: "Is the civil  
service like ours? Are there retiring  
allowances and pensions?" "My illus-  
trious friend," replied the pasha, "Al-  
lah is great, and the public functionary  
who stands in need of a retiring allow-  
ance when his term of office expires is  
a fool."

### WORD FOR THE ONION

VEGETABLE SHOULD HOLD HIGH  
PLACE IN THE HOUSEHOLD.

Without Doubt, it is the Best of All  
Flavoring Agents — Should Be  
Soaked in Cold Water Before  
Being Served Raw.

Onions, cabbages, turnips, carrots—  
what housekeeper does not tire of the  
endless monotony of the displays of  
these vegetables in the winter shops?  
Of course, nowadays almost all of us  
can afford hothouse vegetables in the  
winter. So cheap they are that they  
are no longer a treat. Nevertheless,  
these old winter stand-bys are still  
stand-bys for us, and the more we  
know about cooking them temptingly  
the better.

Onions have more possibilities, per-  
haps, than any of the others, for  
onions are one of the best flavoring  
agents. And the number of times a  
week onions can be successfully used  
depends almost wholly on the ingenu-  
ity of the cook.

For flavoring salads, either rub the  
dish in which the salad is mixed with  
half an onion or else place a tiny piece  
of onion under a little piece of bread.  
In this way the flavor of the onion per-  
meates the whole dish and yet the  
salad does not come into direct con-  
tact with it.

Onion juice or grated onion can be  
used in flavoring soups and stews  
when a strong flavor of onion is not  
desired. And if only a slight flavor is  
liked, parboil the onion before adding  
it to the stew or soup.

When raw onions are served soak  
them beforehand for an hour in cold  
water. This moderates their flavor  
and really improves them immensely.  
The sharp taste is lacking and only  
the best of the onion flavor remains.

Many persons who do not like raw  
onions do like them cooked, and al-  
most nobody finds cooked onions in-  
digestible—raw ones cannot always be  
digested. Moreover, cooked onions  
contain desirable food properties and  
are an important item in the winter  
diet.

One delicious cooked onion dish is  
prepared from onions boiled tender  
and put in a buttered baking dish,  
with grated cheese over, under and  
between them. A little milk is added  
and the dish is baked until the cheese  
is melted.

Another good onion dish is made  
from boiled onions, placed in a but-  
tered baking dish, covered with cream  
sauce and sprinkled with grated  
cheese and bread crumbs. This should  
be browned in the oven.

Plain boiled onions served with  
melted butter and pepper and salt are  
good. They should be cooked tender  
and served very hot.

Onion soup, too, is good unless one  
really dislikes the onion flavor. On-  
ions are boiled to pieces in water and  
this water, strained, is then mixed  
with hot milk, seasoned and lightly  
thickened. It is served very hot with  
croutons.—Frances Marshall, in Chi-  
cago Daily News.

Buttermilk Doughnuts.

One cupful of buttermilk, one cupful  
of brown sugar, two tablespoonfuls of  
butter, one egg, one-half teaspoonful  
of baking soda, one teaspoonful of  
cream of tartar, flour, one-fourth of a  
teaspoonful of salt. Cream the butter  
and sugar together, then add the egg,  
well beaten, the buttermilk, soda,  
cream of tartar and enough sifted  
flour to make a stiff dough. Roll out  
about a quarter of an inch thick, cut  
with a doughnut cutter, and fry in  
plenty of smoking-hot fat. Drain and  
dust with sifted sugar.

Delicate Corn Starch.

Heat one pint water, add two table-  
spoonfuls corn starch, three table-  
spoonfuls sugar, pinch of salt, mixed  
together. Then add well-beaten whites  
of two eggs and cook until thick.  
Custard Sauce for Above.—One pint  
hot milk, one teaspoonful corn starch,  
three tablespoonfuls sugar, mixed to-  
gether. Add to hot milk. Then add  
yolks of two eggs, cook until thick and  
flavor with vanilla.

Bake Ham or Sausage.

Who has ever fried ham or sausage  
without becoming annoyed at the spik-  
tering of grease and smoke which filled  
the room? All this can be avoided by  
preparing the ham or sausage for fry-  
ing, and placing in a moderately hot  
oven, bake for half an hour or until  
as delicately browned as desired. It  
will be deliciously tender, and no one  
can tell what meat is to be served un-  
til it is placed upon the table.

Flooding Powder Magazine.

A flooding device to prevent the ex-  
plosion of the powder magazine is  
fitted to most big battleships. By  
simply turning on a number of taps  
sea water is allowed to rush through  
pipes into the powder store, which is  
rendered harmless in case of fire.

## It Came Upon the Midnight Clear

Christmas Processional Hymn

ST. VAUST. C. M. D. F. WESTLAKE.

1. It came up on the mid-night clear, That glo-ri-ous song of old,  
From an-gels bend-ing near the earth To touch their harps of gold;  
Peace on the earth, good-will to men, From heav-en's all-glori-ous King;

The world in so-lem still-ness lay To hear the an-gels sing A-men.

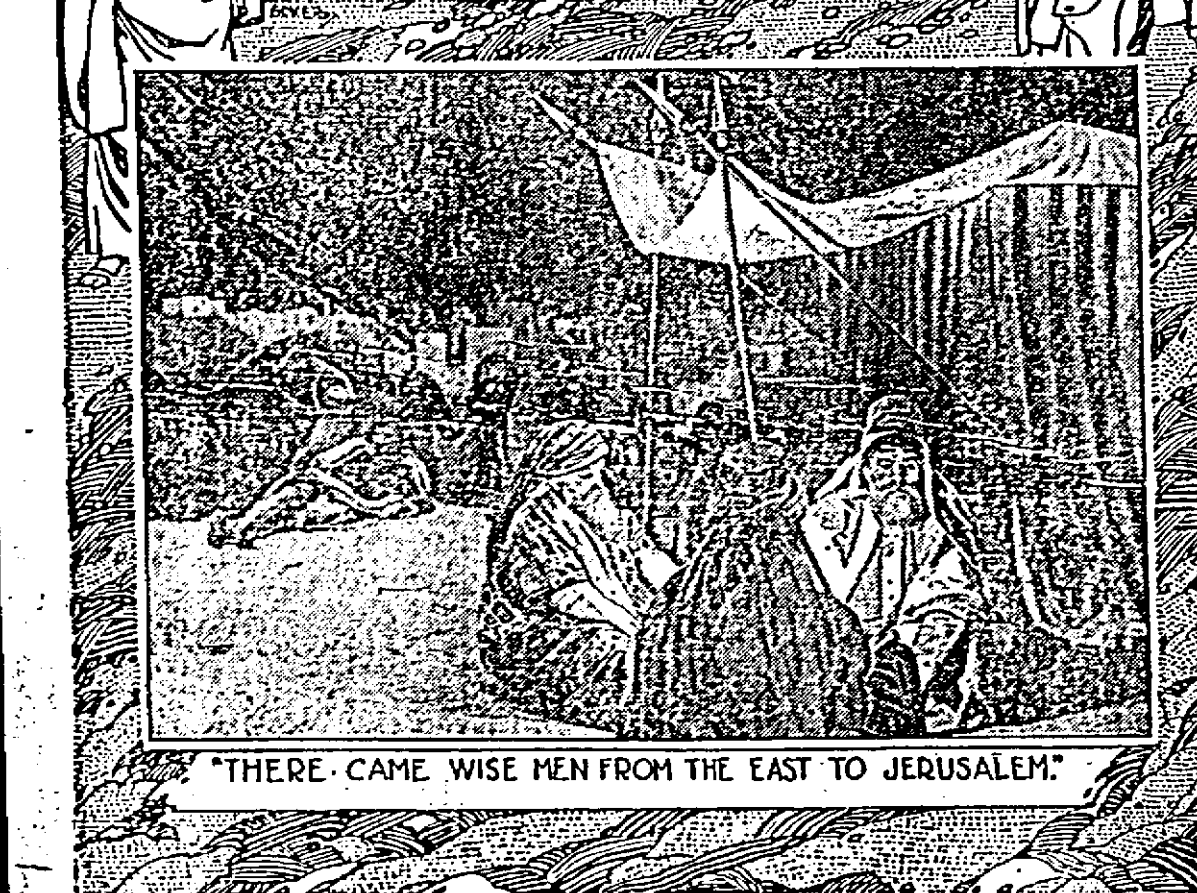

2. Still through the cloven skies they come,  
With peaceful wings unfurled;  
And still their heavenly music floats  
O'er all the weary world;  
Above its sad and lonely plains  
They bend on hovering wing,  
And ever o'er its Babel sounds  
The blessed angels sing.

3. O ye, beneath life's crushing load,  
Whose forms are bending low,  
Who toil along the climbing way  
With painful steps and slow!

4. Look now, for glad and golden hours  
Come swiftly on the wing;  
Oh, rest beside the weary road,  
And hear the angels sing.

5. For lo, the days are hastening on,  
By prophets seen of old,  
When with the ever-circling years  
Shall come the time foretold,  
When the new heaven and earth shall  
The Prince of Peace their King,  
And the whole world send back the song  
Which now the angels sing. Amen.

**Thrift Sometimes Overdone**  
"This thrift movement which is agitating the public mind" at this time is a good thing I suppose," said a friend the other day during a discussion of health matters, "but it has its limits. I've watched thrifty and unthrifty people a whole lot because I've lived my whole life among people who haven't earned much money nor had a great deal of it to spend. "My old dad would be called by most people a thrifless man and I've always blessed him and loved him for it."  
"Dad had to provide for a family of nine of us and we're all alive and in good health today. My brothers and I went about with holes through the soles of our shoes and with holes in the seats of our trousers but we never went to school or to bed without the good comfortable feeling of a stomach full of plain wholesome food. And that's the thing that counts in the health and wealth of a growing boy."  
"I know of plenty of families in this town who own and have partly paid for small homes, or who have small 'rainy day' and old age savings accounts which have been saved out of daily wages none too large to provide for the necessities of life and health."  
"How do they do it?" By skinning down on the very food they and the babies need. Why, you've no idea how many of the children of such families go to school with a little rye bread and coffee—come home at noon to a dinner of rye bread, cold coffee and possibly a little sausage. Milk? I should say not! supper of more rye bread and more cheap sausage—and go to bed on a coffee is cheaper, a whole family can be furnished coffee for less than it would cost to furnish a single child with milk.  
"If you could teach these people who know how to save too well, how to spend their money wisely and how to secure full value for what they do spend, you would succeed in preventing an enormous number of deaths."

Indigestion.  
Indigestion follows rye bread only  
because of the yeast in it. The tem-  
perature of the intestines is the most  
favorable possible for producing a re-  
newed "rising" of the yeast, and  
through this chemical process the in-

notably the acids from fruits and some  
vegetable, add to the trouble.

Large Drill in Small Press.  
Drilling a hole larger than the maxi-  
mum capacity of a small drill press  
can be done by turning down the  
shank of the drill to a size that will  
fit the chuck. The hole should first  
be drilled a size smaller than is de-

step is necessary because the speed  
of the average small press is too fast  
for a large drill.—World's Advance.

# HEALTH RECORD OF STATE IS HIGH

Figures Show Wisconsin's  
Death Rate As 11.1 Per Thou-  
sand Last Year

Only three states—Kansas, Utah and Minnesota—of the territory embraced in the registration area had a lower death rate in 1914 than Wisconsin. This is revealed in new census figures on mortality made public by the department of commerce. The area covered comprises 25 states and 32 cities in non-registration states and contained two-thirds (66.8 per cent) of the total estimated population of the United States in 1914. For the four leading states named the death rates per 1,000 population were as follows: Kansas, 9.8; Utah, 10.1; Minnesota, 10.6; Wisconsin, 11.1. Wisconsin's mortality ratio was based on total deaths during the year of 27,181.

Among the states for which death rates for 1901-1905 are given, the greatest proportional decrease between that period and 1914 is shown for Rhode Island—17.4 per cent. Next in order are New York with a decrease of 14 per cent; New Jersey, 11.8 per cent; Massachusetts, 11.4 per cent; Vermont, 7.4 per cent; Connecticut, 3.3 per cent; Indiana, 2.3 per cent; Maine, 1.9 per cent; New Hampshire, 1.8 per cent. Michigan alone showed a slight increase—eight-tenths of 1 per cent.

Only three cities of more than 100,000 population in the same area had a lower death rate than Milwaukee in 1914. Per 1,000 population, these rates were: Portland, Ore., 9.1; St. Paul, Minn., 11.4; Oakland, Cal., 11.6; Milwaukee, 11.6. Seattle and Spokane were not computed. In 1913 Milwaukee's death rate was 12.7.

Among the cities of 100,000 or over the tendency is toward a still greater reduction in mortality. Jersey City, New York City, San Francisco, Denver, Newark, Pittsburgh, Atlanta, Los Angeles, Lowell and Paterson show a decrease of 20 per cent or more for the five-year period 1901-1905 to 1914.

It should be remembered that the rates cited are "crude" rates, which make no allowance for difference in the sex and age distribution of the population, and that inferences in regard to the relative healthfulness of different states should not, therefore, be drawn without more thorough investigation.

## CAN NOW WED

More marriage licenses were issued by County Clerk Verage this week than in any single week for several months, ten young people having decided to join in bonds matrimonial. The list follows:  
 Jan. 17, Asa Beach, Symco, and Fanny Erickson, Three Lakes.  
 Jan. 18, Vincent Berg and Myrtle Schulke, both of Rhinelander.  
 Jan. 21, Alexander Schmaltz and Alfreda Jesween, both of Rhinelander.  
 Jan. 21, John Dokulek, Starks and Clara Lasiewicz, Three Lakes.  
 Jan. 21, Festus Collier and Carrie Dehart both of Monico.  
 Two other young people visited the county clerk's office and got information on the license question and promised to return later.

## FARMERS PROSPEROUS

The early coming of snow this year and the freezing up of the swamps previous to the fall of snow furnishes just what was needed by the farmers to enable them to market their saw logs, pulp timber and stove wood. Not for a number of years back have we had such excellent roads for sleighing so early in the season, and local merchants report that an increase in trade from the farmers is evident at this holiday season. Every road leading from the city is filled with teams from the country each day hauling loads of the forests' products, all of which are commanding a good price at the present time.

Many Gates in Norway. A curious feature to travelers on the highroads of Norway is the great number of gates—upward of 10,000 in the whole country. These gates, which either mark the boundaries of the farms or separate the home fields from the waste lands, constitute a considerable inconvenience and delay to the traveler, who has to stop his vehicle and get down to open them.

## EVENTS OF WEEK IN NEARBY TOWNS

**Antigo.**—The small pox epidemic in this city seems to be at an end. At present only three cases are under quarantine. It was at first thought that it would be necessary to order schools, churches and theaters to close for a period of time but a strict observance of the regular quarantine measures established seems to have checked a general spread of the disease.

**Ironwood.**—The Puritan mine, east of Ironwood, resumed operations on Monday with a crew of about 200 men. Replacing of old timbers in the shaft with modern steel and concrete construction has been under way at the Puritan for several months; this work is now completed to the 700-foot level and everything is in readiness to resume hoisting.

**Washburn.**—The DuPont Powder company is taking all precautions to guard their plant at Barksdale against possible accidents from trespassers. In order to make it more easy for the guards to detect trespassers at night a system of powerful search lights have now been placed upon the patrol houses and flash up and down the valley during the night. The lights are so powerful that moving objects in the woods can easily be detected, thus making it impossible for any person to get close to the grounds.

**Green Bay.**—Green Bay will within another year be the site of railway shops bigger than any in this part of the country. After a year's figuring on the proportions, officials of the Chicago & Northwestern road have decided to build shops here in 1916, it is understood. Plans have been partially worked out for the building of the new shops. Employment will be given to more than 500 skilled workmen and upwards of 2,500 will be brought to the city by the corporation.

**Ladysmith.**—F. V. Staley, formerly a resident of Ladysmith, and who had been serving with the British army as a Scotch Highlander since last spring, was killed in battle near Hooze, Belgium, on Sept. 25. The report issued from the British war office gave no details save that he "had met with an honorable death." Mr. Staley's family—wife and two children—are residing at Birnamwood and the last word Mrs. Staley received from her husband was a letter dated Sept. 23, and in which he stated, in an indirect way to conform to the rules of the censorship that the Allied drive would start the next day—also that he was at Hooze, Belgium. He evidently lost his life in the "drive."

**Hayward.**—One of the most touching tragedies ever recorded in this county was the drowning of George Ashmore, principal of the Stone Lake school, last Tuesday evening, while enjoying himself with a number of his pupils at a skating party on Stone Lake. Mr. Ashmore's death was a terrible shock to the people of Stone Lake. He was doing a wonderful work with the school and had an influence over the younger people, for which the parents were very grateful. He leaves a father, two brothers and a sister.

**Bayfield.**—The herring season came to an end Saturday. It was a very short

season, but a fairly good one. Weather conditions were decidedly favorable to the workers, there being no storms and the temperature staying high to the very end. As nearly as can now be learned the catchers brought to this market close to two million pounds.

**Gladstone.**—J. N. David and Samuel Jones, the two negroes arrested at Escanaba Friday on the suspicion that one of them had frightened a young Escanaba lady Thursday evening, were on Friday ordered to leave the city at once. Neither of the suspects could be connected with the offense. One is charged with carrying a razor and the other with being a vagrant. Both promised to leave Escanaba at once.

## Christmas Near The North Pole

**A** JOVIAL Christmas was that spent by Admiral Peary on his last expedition to the north pole. From which he returned with the report of the discovery of the north pole. At Cape York, Greenland, the Roosevelt picked up Eskimos and dogs and by way of Etah and Cape Sheridan made her way to Grant Land, where she had to halt in the ice locked waters of the Arctic ocean, only 600 miles from the pole, when Christmas day came. The story of the party's celebration of this Christmas, one of the "farthest north" ever enjoyed by white men, was told interestingly by the explorer when he returned to the United States.

"It was not very cold," wrote Peary, "only minus 23 degrees F. In the morning we greeted each other with the 'Merry Christmas' of civilization. At breakfast we all had letters from home and Christmas presents which had been kept unopened. MacMillan was master of ceremonies and arranged the program of sports. At 2 o'clock there were races on the ice foot. A seventy-five yard course was laid out, and the ship's lanterns, about fifty of them, were arranged in two parallel rows twenty feet apart. These lanterns are similar to a railway brakeman's lantern, only larger. It was a strange sight—that illuminated race course within 7 1/2 degrees of the earth's end.

"The first race was for Eskimo children, the second for Eskimo men, the third for Eskimo matrons with babies in their hoods, the fourth for unencumbered women. There were four entries for the matrons' race, and no one could have guessed from watching them that it was a running race. They came along four abreast, dressed in furs, their eyes rolling, puffing like four excited walruses, their babies in their hoods gazing with wide and half bewildered eyes at the glittering lanterns. There was no question of cruelty to children, as the mothers were not moving fast enough to spill their babies. Then there were races for the

"AT BREAKFAST WE ALL HAD LETTERS FROM HOME"

ship's men and the members of the expedition and a tug-of-war between the men aft and forward.

"Nature herself participated in our Christmas celebrations by providing an aurora of considerable brilliancy. While the races on the ice foot were in progress the northern sky was filled with streamers and lances of pale white light.

"Between the races and the dinner hour, which was at 4 o'clock, I gave a concert on the piano in my cabin, choosing the merriest music in the rack. Then we separated to dress for dinner. This ceremony consisted of putting on clean flannel shirts and neckties. The doctor was even so ambitious as to don a linen collar.

"Peary, the steward, wore a chef's cap and a large white apron in honor of the occasion, and he laid the table with a fine linen cloth and our best silver. The wall of the mess room was decorated with the American flag. We had mink or meat, an English plum pudding, sponge cake covered with chocolate, and at each plate was a package containing nuts, cake and candies, with a card attached 'Merry Christmas From Mrs. Peary.'

"After dinner came the dice throwing contests and the wrestling and pulling contests in the fo'c'st'le. The celebration ended with a phonograph concert given by Peary.

"But perhaps the most interesting part of our day was the distribution of prizes to the winners in the various contests. In order to afford a study in Eskimo psychology there was in each case a choice between prizes. Tookoomah, for instance, who won in the women's race, had a choice between three prizes—a box of three cakes of scented soap, a sewing outfit containing a paper of needles, two or three thimbles and several spools of different sized thread and a round cake covered with sugar and candy. The woman did not hesitate. She had one eye perhaps on the sewing outfit, but both hands and the other eye were directed toward the soap. She knew what it was meant for. The meaning of cleanliness had dawned upon her—a sudden ambition to be attractive."—New York Tribune.

## BENEATH THE MISTLETOE

"Vow to me now,"  
Said the innocent lover;  
"Vow to me now,"  
Boldly he glanced at the plan  
just above her—  
The mistletoe bough.

"Swear that you love  
And will marry me, dear,  
While up above  
Christmas stars shine so clear.  
Kiss me and vow,  
Under the bough,  
Always, forever, you'll cherish  
me near."

Tender her kiss  
As gayly she told him  
Joy of her bliss  
So close to infold him  
Under the spray.  
Then she sent him away.  
'Twas time for the next, so why,  
why should he stay?  
—Lurana Sheldon.

## Christmas Among The Wealthy Kiddies

CHRISTMAS in Millionaire row is a day spent in fairyland, where one has but to wish and all sorts of lovely things come tumbling down from somewhere.

Does Santa Claus come decked in gold and diamonds when he dashes over the roof tops as the little children of the rich lie softly cradled in their beds? Not a bit of it. Santa is the same jolly old saint when he drops down the chimneys of Fifth avenue, New York, as when he leaves a toy on the ash strewn hearth of the east side. He knows that, although the big nurseries and playrooms of the are already bold stacks of toys a beautiful things, somehow when the flavor of fir and holly is in the air there is the same thrill in the hearts of the tots in fur and velvet as in those in cotton. And blessed old Santa smiles on both!

To all youngsters, rich or poor—yes, and old or young—he is the embodiment of the blessed Yuletide spirit which brightens the entire year.

The Tinsful Watermelon.  
Our idea of a natural and unassuming person is one who eats his watermelon harmonica fashion.—Springfield Union.

## What Others Eat at Christmas

EVERY one is familiar with the foods that go to make up the Christmas dinner of the English speaking races—the turkey, goose, plum pudding and mince pie festivity—but how many of us know what they eat at Christmastide in foreign countries?

The Frenchman's Christmas bill of fare, for instance, is extensive and varied and in many respects quite different from our own. The great Gallic national dishes are truffled turkey and black puddings, of which every Frenchman who can afford such luxuries makes a very hearty meal at Yuletide.

In Russia the Christmas meal consists largely of two dishes—one of wheat porridge served with honey and the other a curious compound of stewed pears, apples, oranges, grapes and cherries, sweetened with honey and served cold.

Italians, too, are fond of rather sweet and indigestible dishes, especially at Christmas. One of their favorite combinations is that of eels, periwinkles and vermicelli, while the inevitable macaroni and spaghetti form, of course, the principal articles of food at all times.

The German Christmas dinner offers as its principal attraction the goose, without which your true German would feel that he had not had a real holiday feast. Germans, like Austrians and Italians, have a very sweet taste, as evidenced by their numerous varieties of cake.

Notwithstanding the tendency in all countries to offer huge dinners at Christmas, it would seem that every

BRINGING IN THE PEACOCK IN OLDEN TIMES.

n's holiday bill of fare is becoming simpler with the course of time. An interesting comparison may be made of the Christmas dinners formerly served in England and in this country with those of today, albeit the latter are by no means scanty.

The forebears of modern Englishmen must have possessed magnificent appetites. Their hospitality was conducted on a scale that would make the housekeeper of today shudder. The meal with which they commenced their Christmas day, a mere appetizer to them, was ample enough to rob the modern gourmet of all rest for food for several days. The sideboard of the old English mansion groined under its

ferocious round of beef, its corpulent pork pie, the Yorkshire ham, the brawn and chine, while on the table itself devilled turkeys' legs, homemade sausages, cutlets and kidneys sent up a mingled and grateful incense from an environment of piles of hot buttered toast, new laid eggs, honey and fruit.

But this repast, substantial as it was, was trifling as compared with the dinner—the real dinner—that followed not many hours after. The feast was heralded by the bear's head, preceded by servants who blew resounding flourishes on their trumpets. The bear's head itself was carried, sometimes on a dish of gold or silver, into the banquet hall at the head of a stately procession of guests.

Then came the peacock, which was served even more sumptuously than the bear's head, with its garnishing of rosemary and bays and its trunk ornamented with large apples. This is how they used to prepare the peacock for the feast: When it had been roasted and dressed with a stuffing of sweet herbs and spices and basted with the yolks of eggs it was served into its feathers, its beak was gilded, and it was borne to the dining hall by dames of high degree, accompanied by the strains of minstrelsy.

Other features of the old time Christmas dinner included geese, turkeys, capons, pheasants, stirlings of beef and

naunces or venison. That feast was washed down with gallons of ale and wine goes without saying. Indeed, another story might be written of the liquid element of the old English dinners.—Harper's Weekly.

Made It Unanimous.  
"Have you any militant suffragists in Crimson Gulch?" "Nary," replied Bronco Bob. "When the school teacher dropped a hint as to how she'd like to vote we'd have been glad of a chance to shoot up anybody that 'ud interfere with her. But by common consent we turned the polls over to her an' all stayed away so's there wouldn't be any chance of her bein' embarrassed."—Washington Star.

## HINT OFFERED TO NEW SETTLERS

In the burning of logs and brush, farmers of northern Wisconsin would do well to follow the method of the railway section foreman. This consists in piling timbers in such a way that, as the fire burns down, the wood settles in parallel tiers, and so is thoroughly consumed.

Logs thrown together in helter-skelter fashion cannot be expected to burn readily or completely. According to Carl Livingston of the department of agricultural engineering, University of Wisconsin, there are a number of other points to be observed in burning waste wood, a few of which are given herewith.

See that stumps are clean, and not coated with thick layers of mud and earth, which act as a check to the flames.

Make the piles high and narrow, as cone shaped as possible, and never broad and rolling in form. Fill all spaces with small stumps or splinters of wood to make the pile compact.

When burning windfalls, saw off the stump close to the roots, and burn each part separately.

When burning brush it is best to trim off the main branches of small trees and saplings before putting them on the pile.

No material injury to the humus in the soil will result from burning stumps or logs if they are piled in wet ground.

Do not fire a large pile of stumps or logs during a high wind. A moderate rate of burning will do a better job.

## COMMUNICATION

To the Editor of The New North:

In view of the fact that false reports have been published and circulated in various localities about the state regarding the legal proceedings instituted at Grand Rapids, Michigan, against the L. Starks Company, by a discharged employee who held a few shares of stock not paid for, I am forwarding to you the enclosed statement of facts, signed by our President, Mr. Starks, to ask that you publish same, that the truth may be known.

Signed,  
W. B. ANGELO.

J. F. French who owns a small equity in one hundred fifty (150) shares of the stock of this company acquired by private contract with me, filed a bill in the Federal Court at Grand Rapids, Michigan, asking for a receiver for the company on the ground of mismanagement, criticizing the purchase of our Oneida county farm, and the establishment of jobbing stores in Chicago, and claiming that the company should have paid dividends instead of making these investments. French also makes some other minor complaints. The fact is that our directors have always been unanimous on the projects of the company, and their judgment is vindicated by the fact that the farm and stores both are profitable ventures. The management is the same as it always has been and that it is competent is proved by our present net worth, approximating \$750,000.00 built up in twelve (12) years from \$150,000.00. French is acting for himself alone—all other stockholders have submitted signed declarations that they are not interested in the case, do not intend to become so, and do not want a receiver appointed.

The company owes no money to French, on the contrary, he is indebted to the company, in the amount of \$8001.00 over-drafts on his

personal salary account. No creditors are parties to the suit. French was our manager at Grand Rapids, Mich., and in his seven years employment made a net loss of \$38,000.00 after paying which the company has yet prospered as above stated. Because his management was unprofitable he was dismissed from the service of the company on November 1, 1915.

We are assured by our attorneys that his bill contains no allegations on which we need fear a receivership, and we are confident that the proceedings will be dismissed. On December 9th, a telegram was received threatening this action unless his stock equity should be purchased at a price which he named, and this proceeding was pursuant to that threat. The company has nothing to do with his stock ownership or his private contract with me, and is in no way accountable for his stock equity.

The L. Starks Company is enjoying a profitable business, and is in a thoroughly sound financial condition. It has made money since the beginning of the present season and intends to bring the season to a profitable conclusion.

Signed,  
L. STARKS.

## TAXES NOW READY

I have the pleasure of announcing to the public that I have the tax roll in my office ready to receive your taxes.

If you will bring your last year's 1914 tax receipt it will expedite matters in locating your descriptions more readily. Very truly yours,  
S. H. ASHTON,  
City Treasurer.
